April, 2010

ADDICTED TO CRACK

Now by this time the most of ya'll know my husband has signed off on my entitlement to insanity. He still cannot believe my eyes aren't brown cuz I'm so full of ___it. They are still blue as the sky, so we all know I have yet to reach full capacity..... At this point he would prefer I was addicted to crack, cuz menopawsal is flat frightening. Tis a story in the near, near future and ain't menopawsal gonna be a grand one! For now, this story is, as ya read in the title, I am addicted to crack! Yep! an ya know the first sign to gettin help is admitting ya got a problem. I have had a crack problem for as long as I can remember. We all know it, I've tried to hide it. Made excuses but I'm a hopeless case. The one thing about me is, I live in a glass house and don't mind walking around naked and sharing my crack problems or sharing whatever else is on my mind. Yes this crack has over taken me. Heck I believe it is time to blame all you enablers. You know who you are. You have been watching me sneak a little crack, not saying a word. I can't help myself, I'm so hooked on its euphoria! I feel a little guilty at first, but once I get a little crack, I am so happy nothing else matters. The earlier I get crack, the happier I am. Ya know we don't think right when addicted to crack. Sorry, I couldn't stop myself, as soon as I saw I could get some crack a little earlier in the day, I had to have it! the earlier the better. . There is no stopping me. I am addicted people, I am addicted to the crack of dawn! Oh the sun is a rising earlier every day!!! I am so happy winter is over. Everyone should be hooked on my kind of crack. The crack of dawn. I can't get enough of it!

Summer schedule is a coming, I guarantee I will be starting at the crack of dawn. I want to remind everyone to please set their sprinklers last cycle to end before 6 a.m. Even better would be to not have them run on your day of service. I am going to try and take Mondays off my service route. I hope to have the summer schedule mastered by the end of April. I still have the morning paws from 8 - 8:40 to relieve my husband and get the princess on the bus. I still face a few spring snow storms that'll throw me off but summer break will be here soon enough. Give me a call if ya have any questions about your day of service. Please, please, pretty please with the sprinklers... Addicted to crack! Who would of guessed?

VETURDNARIAN

Heartworm season, now this is some serious crap. Call your veturdnarian and get your dog docturd up with its heartworm medicine. The Longmont Humane Society holds a vaccination clinic the 1st Saturday of each month, and also offers heartworm testing during the clinic. Call 303-772-1232 ext. 280 for more info. Don't forget about West Nile and take care of your self too. Stupid mosquitos.

DON'T GET HIGH ON GRASS

Right, like the last thing anybody needs is a crack addict telling them to not get high on grass. Well there's always a first time for everything! Doo News always first in getting the scoop and keeping up with the latest crap. This should make national news...Crack addict warns public, don't get high on grass! Maybe I should mow over these grass issues a little more consistently. These grass issues are making headlines every where. I hope you all get control of your grass issues this year. Legal or not I don't want to be finding myself knee deep in weed. I already have a crack problem! Vroom.... Mowing season is here. It's time for your anal reminder to keep your yard mowed. I will always doo my best, but I cannot scoop what I can't see. Please take a walk about your yard. Did ya almost get your eye poked out by bush? Did the rose bush rip your shirt getting through your gate? Is your gate functioning well? All the reminders ya need for now. Should of went for some more medical marijuana puns!

CONSTIPATED

I feel so much better now that I have finally been able to unload all this crap I've had bottled up inside. If my life is not constipated (thats when we're forcing crap to happen), It has the diarrhea (thats when we have no control over crap). Life is full of all kinds of crap. I hope I make your life a little less crappy and a whole lot more happy!

News Letter lovers I hope I exceeded your expectations!.

The only News Letter with little information and a lot of crap! Not intended to be offensive. Hope you found it slightly entertaining.
