## EXCHANGE

We now exchange Summer for Fall. Exchange a mower for a rake. Then to exchange Fall for Winter. The rake for a snow shovel. . During this time I do not exchange good service for bad. I'll do my best in exchange for your continued support.

Exchange: To give & receive reciprocally. I love this definition. This is my year of exchange. This month we shall exchange Daylight savings time for standard time. With this I will exchange my shorts for pants. I just had to exchange my old truck for a new one. Gonna have to exchange my new invoice program, (again), for a better program. Looking so forward to that exchange. Going to exchange my sacred free time for even less time, as we exchange an unoccupied bedroom for a occupied one. We are excited to announce our Exchange student Julia from Finland. Adding Julia to our family in exchange for a new & wonderful opportunity. A great experience for us all, how fun!

Next I have to exchange my early bird schedule for that of a high school parent. You all will be loving that one. No early morning dogs begging to get out for treats. Shoot I'll miss seeing ya in PJ's! It might take a little to get on track with this new schedule, more for me than you. Your day of service will be the same though

I will exchange everything on my plate to not have double doo-ty. With Winter coming I'll exchange cartoons for the weather report. If given the chance I will beat that snow in exchange for some peace of mind. I love taken care of crap in exchange for your happiness.

It's meant to be hilarious

I won't go on but I am sure I could. Man I entertain myself a lot..

Sit for brains no doubt. I tried to come up with a cute name for my new truck, Scooter or something. Was not ready to get a new truck yet. So sad, I cried as my old truck crossed over to the other side. 11 good years, but she was done. It was time for a new truck. I am not big on change, especially in my pocket. Money, money, money! Everything about her reminded me of money. I have to have a truck to make money, she cost me money. I don't like spending my money. Suddenly it dawned on me. I was buying her because of Yo Money! I have always been thankful for Yo money. I was extremely thankful for my new truck, it was just so much easier thinking I was spending yo money than spending my money. How much more positive could I make this financial expenditure.. Than to say, I am so, so, Thankful for Yo Money, in far more ways than you will ever know. How fun is it for you knowing you get to see Yo Money every week.

The only News Letter with little information and a lot of crap!  
Not intended to be offensive. Hope you found it slightly
